

Laurel J757

Giesecke & Devrient

Professional quality, banknote counter with authentication – for any currency

Single denomination banknote counter

Interface

J-757 has a standard RS232 output interface

For clear easy to read display

Option

3 digit remote customer display

High Productivity : The J-757 boasts a counting speed of up to 1500 notes/min. which will help significantly improve operation efficiency.

SC Detection : The J-757 is equipped with the SC (Short size Check) Function as standard to prevent rogue denominations being counted.

Authentication: UV is used to authenticate the banknote substrate.

Low Error Rate : Thanks to the J-757s enhanced Counting Sensor System, error rate is significantly reduced even when counting poor-quality notes.

Low Jamming Rate : Professional quality note transportation mechanism ensures less frequent jamming.
